MEET THE OWNER...

Hi there! I'm Hazel and I started my wedding stationery business Coill Design way back in 2007. After completing a BA in Fine Art in 2002 and an MA in Digital Media and Design in 2005 My sister was getting married and I realised there was a gap in the wedding market for unique, bespoke wedding stationery so I decided to put my creative hands to designing a unique and exquisite range of Wedding Invitations and Stationery products, that give couples an alternative option when choosing wedding invitations for their special day!

In my spare time, I enjoy painting, cooking, running a bit and walks and adventures with my husband, two daughters and little dog!
I have a passion for nature and beautiful things and anything a little bit different!

PLANTABLE SEEDED STATIONERY

These beautiful wedding invites and stationery are made from plantable paper that is embedded with hundreds of seeds that, when planted, will grow into wildflowers or herbs. There are instructions below on how to grow your seeded paper, once/if you are ready to part with your gorgeous invitation. They are a fantastic option I think if you're looking for an eco-friendly and alternative option for your wedding stationery.

CUSTOMER REVIEW

"We absolutely loved the concept of plantable invitations and when we saw them in real life we were so happy with the quality and design!

Hazel helped us with the wording, gave us advice on when to send the invitations out and how many to order. She made our lives very stress-free which helped so much coming up to the wedding day!

We would highly recommend her company and her" - Claire and James :)

CUSTOMER REVIEW

“As the mother of the bride, with my daughter and her (now) husband living overseas and not knowing whether the wedding would actually go ahead last December (due to Covid), it was a difficult scenario. Hazel was AMAZING! She liaised with both my daughter and me, and met me to show me plans and invitations. There was no problem changing design for invitations, place name cards, etc. and nothing was too much trouble, Hazel is extremely professional and pleasant. 10/10” - Helen Dolan

CUSTOMER REVIEW

"Everything from designing , delivery and ease of use was just amazing. We were quite different with our colour scheme and hazel was amazing at matching them up. Everybody loved the elegance and simplicity of the pocket fold invites we got with personalised tags. We also loved our personalised table plan and our top table place names. Couldn't ask for better. Thank you so so much again hazel. Will definitely be recommending to friends and family." - Anna and Mark

WE CARE ABOUT YOU AND OUR FUTURE...

Here, at Coill Design we are all about being green!

We strive to minimise waste by sending out pdf proof sample wording by email rather than hardcopies. We package all our samples in recyclable envelopes. Our ethos is all about using only what we need, so our advice to clients is only order what is needed and if you need extra invitations or stationery we can print more for the same price, without any extra expense.

There's no minimum quantity, so you never have to print more than you need. Wherever possible, we endeavour to only use Forest Stewardship Council (FSC) paper. The raw product comes from sustainably managed forests and has been sourced in an environmentally-friendly, socially responsible and economically viable manner. The FSC pledge is to plant another tree for every tree used in the paper manufacturing process.
